

# WHAT MAKES PROFESSIONAL LAMINATION POSSIBLE IN JUST 3 SQUARE METERS OF SPACE?

## The thermal lamination machine TLM 500

# TLM 500

### Use / features

The TLM 500 serves to cover printed paper sheets with a wafer-thin Polypropylene thermal laminating film.

### Bringing laminating down to a fine art

In the past, high-performance laminating machines have always taken up lots of expensive space. The TLM 500 has changed all that. The TLM 500 offers everything you expect from a highly professional laminating machine - performance, quality and economic viability - in just three square meters of space!

### Convincing data:

dimensions :	245 x 156 x 127 cm
